LABORATORY 5

1] LISTS

a) Fix the syntax errors in `list.cpp` so that it compiles.

b) Test the program and correct any bugs you find.

To see how list.cpp is supposed to work you can run
`/home/glingard/list addam.txt`

2] WORKSHOP EXERCISE

a) `Testzoolist_partial.zip` contains the main class structure for the workshop exercise. Complete the code in the empty functions.
